Re: Approval of the Grid Code Modification Recommendation MPID 312

Dear Miriam,

I refer to your correspondence to CRU of 01 August 2023 seeking approval of Grid Code modification MPID 312, as recommended at the Grid Code Review Panel meeting on 28 June 2023.

The CRU is satisfied that EirGrid has recommended this modification for approval by the CRU in accordance with the relevant provisions set out in the Grid Code for the handling of revisions and that the views of stakeholders have been adequately considered and addressed.

Having considered the recommendation and its supporting documentation, as well as further engagement with EirGrid on 13 March 2024 and the CRU's Energy Security and Emergency Planning Team, the CRU approves the proposed modification. The CRU is satisfied that the recommendation is reasonable and will not adversely affect any Grid Code User.

The CRU now directs EirGrid to revise the Grid Code to take account of the approved modification. The Grid Code shall be deemed to be amended accordingly from the date of this letter.

Yours sincerely,

Sent by email and accordingly bears no signature
