Grid Code Section(s) Impacted by Modification Proposal:	Definitions

Modification Proposal Justification:

The purpose of this modification is to add the **EirGrid Safety Rules** to the existing Grid Code definition of **Safety Rules**. As part of MPID 305 Incorporation of Offshore PPM Requirements, a new definition for the **EirGrid Safety Rules** was incorporated into the Grid Code. The existing Grid Code definition of **Safety Rules** includes a list of the relevant safety rules, e.g. **ESB Networks Electricity Safety Rules** and the **EirGrid Safety Rules** should be included as part of this list.
