## Background

ECP-2 is the second stage of the CRU's development of enduring connection policy in Ireland. On the 10<sup>th</sup> June 2020 the CRU published their decision<sup>1</sup> on ECP-2, which set policy for at least three annual batches of connection offers (ECP 2.1, ECP-2.2, and ECP-2.3). Subsequently, the CRU published their decision on ECP-2.4<sup>2</sup>, which set policy for an additional batch of connection offers (ECP-2.4).

The application window for ECP-2.4, closed on November 30<sup>th</sup> 2023. The System Operators (SOs) have used the ECP-2 decision paper<sup>1</sup>, ECP-2 ruleset<sup>3</sup> and the subsequent ECP-2.4 decision paper<sup>2</sup> above to determine which applicants have been initially successful in making the list of 62<sup>4</sup> projects due to receive connection offers under Category A.

This report contains the initial list of applicants that will be processed under Category A as part of the 2023 ECP-2.4 batch following payment of the balance of application fees to the relevant SO. As per the decision paper, the first 25 projects in category A were selected on the basis of renewable output, with the projects having the largest volume of renewable GWhrs/yr generated being granted the highest priority. The subsequent 37 projects were selected in order of planning permission grant date. There is a cap of 10 storage and other system service technology projects in each ECP-2 batch - apart from these projects, all eligible applications to ECP-2.4 were accepted into the Category A batch.

Please note that the projects in Category A may change should projects not proceed with their application, or no longer be deemed eligible.

Applicants are summarised in the table below:

Generation Type	Total Applications	Total Sum of MEC (MW)
Solar	30	1247
Wind	8	250
Battery	10	850
Gas	1	71
Hybrid (OCGT / Battery)	1	374 OCGT / 75 Battery
Hybrid (Wind / Battery)	2	206 Wind / 110 Battery
Hybrid (Solar / Battery)	9	406 Solar / 452 Battery
Hybrid (Sync.Cond / Battery)	1	200
<b>Grand Total</b>	<b>62</b>	<b>4,241</b>

<sup>3</sup> <https://www.eirgridgroup.com/site-files/library/EirGrid/ECP-2-Ruleset-Final.pdf>

<sup>4</sup> The cap on the storage and other system service technology projects dictates that the ECP-2.4 Category A batch contains 62 projects.
