Regulatory Update

Stakeholder Forum

17 January 2013

Stakeholder Forum

- **Purpose**
  - » To provide a general European Update from ACER and ENTSOE
  - » To discuss the latest developments in Framework Guidelines and Network Codes
  - » To discussion individual codes and potential implications for the SEM market
    - • Identification of issues that should be raised in ACER and ENTSOE

- **Meetings will be held every two months**
  - » Written submissions welcomed

- ACER is responsible for delivering the Internal Market. NRAs input into ACER's work programme and review of internal market rules

- Under Third Package ACER has key role in:

  » producing Framework Guidelines in relation to each Network Code

  » reviewing ENTSO-E Network Codes to ensure they are in line with the Framework Guidelines

  » Submission of Network Codes to the Commission. Network Codes will become binding EU Regulations following comitology.

- ACER also have important role in monitoring the implementation and functioning of the Internal Market and progress to reaching 2014

- 2 year derogation from Capacity Allocation and Congestion Management (CACM) for island of Ireland overseen by ACER

SEM RAs very involved in ACER and Framework Guidelines

» Attending meetings and input into drafting groups and ACER BoR decisions

» We are representing interests of SEM consumers

» Also UR involvement in UK Stakeholder Groups and Ofgem

» Liaison with Departments and TSOs as appropriate

To date, ACER have adopted Framework Guidelines on:

» Grid Connection (20/07/11)

» Capacity Allocation and Congestion Management (29/07/11)

» System Operation (02/12/11)

» Electricity Balancing (20/09/12)

Review of Network Codes

- **ACER has formally called for improvements to the following Network Codes:**

Requirements for Generators Network Code	13/10/12
CACM Network Code	19/12/12

- **In 2013, we expect to review:**

Demand Connection Network Code	Q1 2013
Operational Security Network Code	Q2 2013
Operational Planning and Scheduling Network Code	Q2 2013
Load Frequency and Reserves Network Code	Q3 2013
Balancing Network Code	Q4 2013
HVDC Network Code	Q1 2014
Forward Network Code	Q1 2014

- **Also key role for Member States in Network Codes at Comitology**
  - » Starting in mid 2013

- **In 2013 ACER will also be focussing on:**

  - » The regional implementation of the Target Model including stakeholder engagement

  - » The implications of CPM on the internal market
    - ECER/CEER Task Force established to look at XB impacts
      - Expert Group has been established
    - CEER response to EC consultation on generation adequacy

  - » European Infrastructure Package
    - Opinions and CBA on Project of Common Interest (PCI) selection

  - » the Inter TSO Compensation (ITC) Mechanism, redispatch and countertrading

- **ACER Stakeholder Engagement**

  » ACER consultations on all Framework Guidelines

  » AESAG Forum – ACER, EC, ENTSO, Eurelectric, EFET

  » ACER workshops on Network Codes

- **SEM Stakeholder Engagement**

  » Bimonthly stakeholder forum

  » Possibility for NI participants to stay involved through the GB Stakeholder group

Thank you for your attention!
