

Appropriate Assessment Screening Determination

CP1124 Lysaghstown Solar 110 kV Station (Fibre Wrap only) [Exempted Development] (County Cork).

In accordance with Article 6(3) of the EU Habitats Directive (Directive 92/43/EEC) and Regulation 42(1) of the European Communities (Birds and Natural Habitats) Regulations 2011 as amended ('The Regulations'), EirGrid has undertaken Appropriate Assessment (AA) screening to assess, in view of best scientific knowledge and the conservation objectives of relevant European sites, if the Lysaghstown Solar 110 kV Station (Fibre Wrap only) [Exempted Development] ('the development') individually or in combination with other plans or projects would be likely to have a significant effect (s) on a European site(s).

The development will consist of works for the purpose of wrapping telecommunication cables on the Knockraha-Midleton 110 kV OHL* including:

- the wrapping of conductor from structures 1-57 on the Knockraha-Midleton 110 kV OHL; and,
- the replacement of structures 1-37 only on the Knockraha-Midleton 110 kV OHL.

The development is not located within or adjacent any European sites. The nearest European sites to the development are the Great Island Channel Special Area of Conservation (SAC) (site code: 1058)¹, and Cork Harbour Special Protection Area (SPA) (site code: 4030)² both located c. 1 km to the north of the development. This determination has had regard for the conservation objectives of these and any other relevant European sites.

In accordance with Regulation 42(7) of the European Communities (Birds and Natural Habitats) Regulations 2011 SI 477 as amended, EirGrid has made a determination following screening that an Appropriate Assessment is not required as the project individually or in combination with other plans or projects is not likely to have a significant effect on any European sites. The risk of likely significant effects on European sites can be excluded on the basis of objective evidence.

This determination is based on the location, scale, extent and duration of the development, including temporary works, and has not taken account of measures intended to avoid or reduce significant effects on European sites.

Signed:

Robert Fennelly CEcol MCIEEM Lead Senior Ecologist
