Total TSO Contracted Wind: 1371.7

Note:

When wind farms are a mix of capacity from different Gates the Gate that includes the majority of the capacity is assigned.

Projects with a non-wind element to their generation plant will be recorded in the contracted TSO (Non-Wind) list.

*Signed Date: This refers to the date that reflects the most recent contract signed affecting the capacity and not necessarily the date a contract varieties. It would not be a signed and the capacity and not necessarily the date and the provided by the date of the party post the date of the party contract part has the original and the party post the date.

*Signed Date: This refers to the date that reflects the most recent contract signed affecting the capacity and not necessarily the date a contract was originally signed e.g. in the case of a relocation the date used is the date of the new contract not the original one. It would not however be updated for a non-MEC related amendment e.g. turbine or name change.
