

# Controllability Status Update

October 2017

---

## 1. INTRODUCTION

The SEM-11-062 decision paper<sup>1</sup> identified a three-level hierarchy classification for Wind Farm Power Stations (WFPS) in Ireland and Northern Ireland; level (i), (ii) or (iii).

On 24th of March 2017, the SEM Committee confirmed that on an interim basis solar and tidal generation is entered onto the priority hierarchy in the same position as wind generation. This is without prejudice to the outcome of any future consultation arising from a wider review of the original decision.

Power Park Modules (PPMs) is a new generic term used in this document to represent specific technology types of Wind Farms, Solar and Tidal units. During this interim time period, all process notes referencing WFPS are applied to PPMs.

This document outlines the list of all Controllable PPMs, 5MW or more on the EirGrid and SONI systems. Each unit is categorised as level (i), (ii) or (iii). The technology types are listed and identified as appropriate within the tables. This list will continue to be updated on a monthly basis.

## 1.1. Ireland

PPMs connected in Ireland (MW)	November 2016	December 2016	January 2017	February 2017	March 2017	April 2017
(i)	59.5	17.1	17.1	0	0	0
(ii)	2047.5	2107	2107	2196.3	2303.97	2333.57
(iii)	214.9	286.8	286.8	214.6	129.2	205.6
Total	2321.9	2410.9	2410.9	2410.9	2433.17	2539.17

PPMs connected in Ireland (MW)	May 2017	June 2017	July 2017	August 2017	September 2017	October 2017
(i)	10	10	10	10	24.1	10
(ii)	2389.97	2389.97	2425.57	2550.82	2550.82	2588.32
(iii)	172.65	178.65	166.75	43.5	97.75	88.15
Total	2572.62	2578.62	2602.32	2604.32	2672.67	2686.47

- Tullynamoyle 3 was included as a Category 3 unit.
- Tullabrack, Ballyby and Foyle were included as a Category 2 unit.

## 1.2. Northern Ireland

PPMs connected in Northern Ireland (MW)	November 2016	December 2016	January 2017	February 2017	March 2017	April 2017
(i)	26.9	26.9	26.9	26.9	26.9	26.9
(ii)	559.6	559.6	559.6	559.6	624.1	624.1
(iii)	64.5	137.15	137.15	204.07	226.55	251.15
Total	651	723.65	723.65	790.57	877.55	902.15

PPMs connected in Northern Ireland (MW)	May 2017	June 2017	July 2017	August 2017	September 2017	October 2017
(i)	26.9	26.9	26.9	26.9	26.9	26.9
(ii)	679.6	624.1	624.1	624.1	624.1	624.1
(iii)	195.65	263.65	263.65	263.65	311.15	311.15
Total	902.15	914.65	914.65	914.65	962.15	962.15

### 1.3. Process Notes

1. Categorisation Policy Document - 5<sup>th</sup> March 2012.<sup>23</sup>
2. Performance monitoring of controllability requirements - 1<sup>st</sup> February 2013.<sup>4</sup>
3. PPMs are obliged to achieve Compliance Certificate within 12 months of energisation. (Operational Certificate, Operational Certificate Justification or Final Compliance Certificate). The Notification list process applied to PPM's without Certificate is published<sup>5</sup>. In line with the CER decision<sup>6</sup>, an additional timeline (one month per 10MW or part of) for PPM's with a Registered Capacity of >50MW is applied.
4. Notification list for testing is published<sup>7</sup>.
5. Category (i) PPM may involve the use of circuit breaker for dispatch purposes. These PPM's shall consider the appropriate procedures to bring the PPM back online (either remotely or by personnel on site) when the curtailment or constraint has been removed by the TSO.
6. Grid Code Compliance Testing or Dispatch testing will not be programmed for the period of December 18<sup>th</sup> to January 2<sup>nd</sup>.
