

EirGrid TSO Stakeholder Engagement Plan 2021

Consultation Note

18 November 2020

Overview

EirGrid believes that working together with all stakeholders – customers and industry, the public and local communities – will lead to better outcomes.

Continuous improvement is a principle that underpins all our stakeholder engagement work and stakeholders' feedback on our engagement processes is key to this.

We are now publishing our draft Stakeholder Engagement Plan 2021 for consultation asking the following questions:

- 1) *Do you have any feedback on our Stakeholder Engagement Plan 2021?*
- 2) *Would you like to see any further information covered in future EirGrid Stakeholder Engagement Plans?*
- 3) *Do you have any view on the direction EirGrid's Stakeholder Engagement should be going in coming years?*

Please submit all responses to info@eirgrid.com no later than **COB 13 January 2021**. Please indicate clearly whether the response is to be considered confidential.

Please note that EirGrid, in its consultation response document, will respond to consultation respondents' comments and feedback within the scope of this consultation on the Stakeholder Engagement Plan 2021. Comments and feedback outside the scope of this consultation will not be included in the consultation response document.
