

Firm Access 2025

List of Generators (Draft) for Firm Access Review 2025

October 2024

1 List of Generators (DRAFT) for Firm Access Review 2025

October 2025

The draft list of generators to be included in EirGrid's Firm Access Review 2025 is set out below.

In addition to the below, those generators processed in last year's review, those which are not yet firm, will also be included in Firm Access Review 2025. This is to check if their firm date can be brought forward.

Generators that are Contracted and that expect their generator to be included in this review are requested to check the list below. If the generator is not on the list, then please contact EirGrid to advise.

Subject: Firm Access Review 2025

Dear Customers,

Please be advised that EirGrid will shortly commence the analysis for the next Firm Access Review, as required by the CRU's Firm Access - Detailed Methodology Decision Paper (CRU/2023114).

Non-Firm generators that are deemed connected or contracted by Friday 15th of November 2024, will be included in this Firm Access Review. A draft list containing same will be published in due course on the EirGrid website.

For the avoidance of doubt, please note that Offers for the ECP2.4 Customers will be processed strictly in accordance with the batch publication.

Regards,

EirGrid.com
