**Re: Approval of the Integration of EU Commission Regulation (EU) 2016/631 -
establishing a network code on requirements for grid connection of generators**

Dear Miriam,

I refer to your correspondence to CRU of 24 May 2019 seeking approval of Grid Code modification MPID 275, as recommended at Grid Code Review Panel meeting on 12 April 2019.

The CRU is satisfied that EirGrid has recommended this modification for approval by the CRU in accordance with the relevant provisions set out in the Grid Code for the handling of revisions and that the views of stakeholders have been adequately considered and addressed.

Having considered the modification and its supporting documentation the CRU approves this modification and directs EirGrid to revise the Grid Code which shall be deemed to be amended accordingly from the date of this letter.

Yours sincerely,
