Re: Scheduling and Dispatch for I-SEM – MPID 271

Dear Arlene,

I refer to EirGrid's correspondence of 5 May 2017 recommending approval of Grid Code modification MPID 271, as recommended at Grid Code Review Panel meeting on 25 April, 2017.

The CER is satisfied that EirGrid has recommended this modification for approval by the CER in accordance with the relevant provisions set out in the Grid Code for the handling of revisions and that the views of stakeholders have been adequately considered and addressed.

It is noted that this modification is relevant to the new I-SEM and should not become effective during the on-going operation of the SEM. Therefore this modification shall not take immediate effect. The CER will set the Effective Date once the go-live date for I-SEM has been formally confirmed.

Accordingly, having considered the modification and its supporting documentation the CER approves this modification under Section 33 of the Electricity Regulation Act, 1999 as amended, to come into effect on the Effective Date.

Yours sincerely,

Robert O'Rourke

Manager, Electricity Networks
