

Grid Code Modification Recommendation Form

Email to gridcode@eirgrid.com

Title of Recommended Proposal:

Incorporation of the RfG Operational Notification Process into the Grid Code

MPID (EirGrid Use Only): MPID 276_b

Date:	20 December 2019		
Company Name:	EirGrid		
Applicant Name:	Miriam Ryan	Tel:	01-2370315
Email Address:	Miriam.Ryan@eirgrid.com		
Recommended at GCRP Meeting:	Ireland GCRP Meeting – 19/11/19		
Grid Code Version:	8		
Grid Code Section(s) Impacted by Modification Proposal:	CC.15 Commissioning and Notification		

The Reason for the Recommended Modification:

On the 17th of May 2016, the Commission Regulation (EU) 2016/631 establishing a network code on requirements for grid connection of generators (hereafter known as **RfG**) entered into force. On the 14th of June 2019, EirGrid published Grid Code version 8 which includes the RfG technical parameters incorporation. Following on from this, three mandatory exhaustive sections from RfG will be incorporated to Grid Code to close out the harmonisation of RfG with the Grid Code. These sections are:

- Operational Notification Process,
- Derogations; and
- Compliance.

This modification proposal is for the incorporation of the Operational Notification Process, as detailed in RfG Articles 33 to 37.

This modification proposal provides for a certification process for connection of power generating modules as described in RfG. EirGrid will develop internal business processes to support Generators during this process.

For reference, the full text of the RfG is available on the [ENSTO-E website](#).

On 19 November 2019, the GCRP was held at the SONI Offices in Belfast. A presentation on MPID 276_b was presented, and further questions were fielded by meeting attendees on the incorporation of the RfG Operational Notification Process into the Grid Code.

On 3 December 2019, minutes of the GCRP meeting on 19/11/19 were issued along with the green and red line versions of the Grid Code for MPID 276.

The deadline for comments on the minutes from the GCRP meeting was 17/12/19. No comments were received, and the minutes were deemed to be approved.

Summary note of any objections to the recommended change from the GCRP members or Consultation Responses:

There were no objections to the proposed recommended change from the GCRP members at the GCRP meeting.

Outcome of any GCRP Meeting Actions Relating to the Recommended Modification:

There were no actions taken at the GCRP in relation to the proposed recommended modification .
