

**Grid Code  
Modification Proposal Form**

Email to [gridcode@eirgrid.com](mailto:gridcode@eirgrid.com)

**Title of Modification Proposal: MPID 308 Grid Code v12 Housekeeping Items**

**MPID (EirGrid Use Only): MPID 308**

<b>Date:</b>	24/04/2023
<b>Company Name:</b>	EirGrid
<b>Applicant Name:</b>	Arlene Chawke
<b>Email Address:</b>	<a href="mailto:gridcode@eirgrid.com">gridcode@eirgrid.com</a>
<b>Grid Code Version:</b>	Grid Code Version 12
<b>Grid Code Section(s) Impacted by Modification Proposal:</b>	Various

**Modification Proposal Justification:**

The Grid Code is a living document and is constantly evolving. Several formatting errors have come to our attention. The TSO are proposing a fix to the errors that span various clauses within the code itself.

A table below outlines the clause, the error, the red-line version of the text and the green-line version of the text.

**A Table Outlining the Proposed Changes:**

Clause	Error	Red Line Version Text <i>Deleted text in <del>strike-through red font</del> and new text highlighted in blue font</i>	Green Line Version Text
OC.11.3	Clause OC.11.3 incorrectly refers to the <b>Distribution System Operator</b> as the <b>Distributor System Operator</b> .	<p>Scope</p> <p>OC11 applies to the <b>TSO</b> and to the following <b>Users</b>:</p> <ul style="list-style-type: none"> <li>(a) <b>Generators</b>;</li> <li>(b) <b>Interconnector Operators</b>;</li> <li>(c) the <del>Distributor</del> <b>Distribution System Operator</b>;</li> <li>(d) <b>Demand Customers</b>;</li> <li>(e) <b>Demand Side Unit Operators</b>;</li> <li>(f) the <b>TAO</b>; and</li> <li>(g) agents of <b>the TSO</b> or agents of any <b>User</b> (as defined in 0(a),(b),(c) and (d)).</li> </ul>	<p>Scope</p> <p>OC11 applies to the <b>TSO</b> and to the following <b>Users</b>:</p> <ul style="list-style-type: none"> <li>(a) <b>Generators</b>;</li> <li>(b) <b>Interconnector Operators</b>;</li> <li>(c) the <b>Distribution System Operator</b>;</li> <li>(d) <b>Demand Customers</b>;</li> <li>(e) <b>Demand Side Unit Operators</b>;</li> <li>(f) the <b>TAO</b>; and</li> <li>(g) agents of <b>the TSO</b> or agents of any <b>User</b> (as defined in 0(a),(b),(c) and (d)).</li> </ul>
PC.A5.8	A number of errors have been identified in clause PC.A5.8. We propose to correct the referencing and formatting errors.	<p><b>Grid <del>connection transformer</del> <b>Connected Transformer of of</b> Controllable PPM</b></p> <p>Provide details of the transformer that connects the <b>Controllable PPM</b> site with the <b>Distribution/Transmission System</b> (<del>equivalent to the</del> <b>equivalent to the Generator Transformer of a of a conventional power station</b>)</p>	<p><b>Grid Connected Transformer of Controllable PPM</b></p> <p>Provide details of the transformer that connects the <b>Controllable PPM</b> site with the <b>Distribution/Transmission System</b> (equivalent to the <b>Generator Transformer</b> of a conventional <b>Power Station</b>). This shall include but is not limited to rating of grid transformer (MVA or kVA),</p>

		<p><b>conventional Power Station</b>). This shall include but is not limited to rating of grid transformer (MVA or kVA), transformer <b>Voltage</b> ratio (kV), transformer impedance (%), transformer tap changing control and no-load losses.</p>	<p>transformer <b>Voltage</b> ratio (kV), transformer impedance (%), transformer tap changing control and no-load losses.</p>
<p><b>Acronyms LV, MV and HV.</b></p>	<p>These acronyms are referenced throughout the Grid Code. Some of the references are bolded and others are not. We proposed fixing this inconsistency by unbolding all references to LV, MV and HV. These acronyms are not defined terms.</p>	<p>We will ensure that all references to LV, MV and HV are not bolded in the next version of the Grid Code.</p>
