# Modifications to Generation Connection Offers

**Supplemental Application Form** 

October 2015

# Introduction

When submitting a request for modification the customer should provide the following:

- The general modification form,
- one or more of the forms listed in the Part 1 and Part 3 below depending on the modification(s) requested,
- initial modification fee<sup>1</sup>, and
- any supporting documentation required.<sup>2</sup>

All documents should be submitted in soft copy to:

- OPMO@eirgrid.com for Transmission Applicants
- <u>DSOGenerators@esb.ie</u> for Distribution Applicants

Typically either a NC5 or full technical criteria form ("Full Form") or a NC5A or reduced criteria form ("Short Form") from Section 1 will be required. A Full Form will generally be required if

- the modification is requested within one year of expected energisation,
- there is a change to an already submitted Full Form and the applicant wishes to submit a full rather than a short form,
- the customer is already connected and wishes to change some of the original information provided.

A Short Form will generally be accepted for all other cases. If the applicant is unsure as to what form to submit the relevant SO can be contacted to confirm.

All requests shall be assessed in accordance with the appropriate technical standards, policy requirements and impacts on the electrical system and/or other users of the electrical system. Therefore in some cases it will not be possible to facilitate a modification request. For customers submitting a request for modification of a Transmission connection agreement this should be done in accordance with the General Conditions of Connection and Transmission Use of System. This Appendix serves only to complement these provisions and to clarify the administration behind it.

Below are examples of the forms to be used. For the most up to date version please see

- Transmission Applicants <a href="http://www.eirgridgroup.com/customer-and-industry/becoming-a-customer/generator-connections/">http://www.eirgridgroup.com/customer-and-industry/becoming-a-customer/generator-connections/</a>
- Distribution Applicants Connect a Renewable Generator : ESB Networks

<sup>2</sup> Please note in a number of cases a customer is required to submit consent from other parties and/or a declaration in a standard format/template. These templates are still in development. Should a modification to be processed require such a form please contact the SO directly and a form will be provided.

<sup>&</sup>lt;sup>1</sup> The current initial modification fee is as set out on our website – <u>Schedule of Application and Modification Fees for Embedded Generators</u>

Definitions of terms used in this form can be found in the Glossary of the Grid Code.

Please note that payment of application fees can only be made via electronic fund transfer into the following account. Cheques are not accepted.

#### **Contestability Template for contesting dedicated assets**

(<u>Note</u> - This template should be provided on your Company Headed paper and signed by someone who has authority to bind your Company. You should replace 'My Project Limited' with the Company Name per your Connection Agreement.<sup>13</sup> The name of the project relevant to your Connection Agreement should replace 'My Project'.)

#### To [ESB Networks Ltd. Or EirGrid plc]

'My Project Limited' requests that the connection offer issued to 'My Project' would be on the basis of the dedicated assets indicated as block x in the Single Line Diagram attached and dated [ ]<sup>14</sup> being built contestably by 'My Project Ltd.

The contestable build will be undertaken in accordance with CER directions and policy, more particularly CER direction CER\10\056 on Transmission and Distribution Contestability, which directions and policy may be amended, updated or replaced from time to time.

'My Project Limited' also understands and accepts that the non-contestable costs associated with the Transmission System Operator's or the Distribution System Operator's construction of the remaining non-contested connection works and any appropriate allocated costs, and any costs associated with the project monitoring and supervision of the contestable build, shall be included in the Connection Agreement for 'My Project Limited' and are payable to the relevant System Operator in accordance with the Connection Agreement.

'My Project Limited' expects the contestable works to be completed subject to the following timescales

Completion of design and granting of Planning Permission – [TIME PERIOD TO BE PROVIDED BY 'My Project Limited']

Works construction time period (post completion of design and granting of Planning Permission) – [TIME PERIOD TO BE PROVIDED BY 'My Project Limited']

'My Project Limited' understands and accepts that the date and times given above may be used in the Connection Agreement, and may be the basis for longstop dates in said agreement.

'My Project Limited' understands and accepts that any assets contestably built will remain in their ownership and be their responsibility unless, and until such time as, the relevant System Operator seeks to transfer said ownership to ESB as Asset Owner.

<sup>14</sup> please include SLD and reference relevant block numbers

<sup>&</sup>lt;sup>13</sup> or most recent version of your application form (as appropriate).

#### **Change to Capacity Bond Template**

<u>Note</u> - This template should be provided on your Company Headed paper and signed by someone who has authority to bind your Company. Items in Italics should be changed by the customer. You should replace 'My Wind Farm Limited' with the Company Name per your Connection Agreement. The name of the project relevant to your Connection Agreement should replace 'My Wind Farm'.)

#### To [ESB Networks Ltd. Or EirGrid]

I am writing to you in relation to the [My Wind Farm] and the Maximum Export Capacity bond (the "capacity bond") provided under the terms and conditions of the Connection Agreement for [My Wind Farm Limited] with [ESB Networks Ltd. or EirGrid plc.].

The capacity bond for [My Wind Farm] was originally provided based on €10,000 per MW and currently is €[insert amount]. Under new bonding arrangements as set out in CER 09/138, [My Wind Farm Limited] wishes to request a change from the current bonding arrangements to the new bonding arrangements including providing a capacity bond of €25,000 per MW one month prior to Energisation or two (2) years post Consents Issue Date whichever is the earliest of the two. It is understood that this only applies to connection offers above 5MW.

I also confirm that in changing to the new bonding arrangements, I understand that the following provisions under CER 09/138 and its bonding arrangements also apply:

- a) the Use It Or Lose It provision;
- b) the first stage payment becomes non-refundable;
- c) if the MEC and/or Operational Certificate requirements in CER 09/138 are not met, the €25k capacity bond shall be drawn down; and
- d) in the event that the Operational Certificate is not achieved within four years of Energisation, the Connection Agreement shall be terminated and the connection de-energised.

[My Wind Farm Limited] confirms that Section 16 of the Connection Offer Process and Policy Paper which sets out the terms and conditions of the new bonding policy has been read and accepted by [My Wind Farm Limited].
