The ORESS 1 Auction Process (OR1QIP) contained in this pack includes a detailed step-by-step guide to enable ORESS 1 Qualified Applicants to clearly understand exactly what is required of them to participate in the ORESS 1 Auction from the Auction Information Pack Publication Date to Final Auction Results Date. Timings of key activities are also illustrated in the process in line with the dates identified in the ORESS 1 Auction Timetable. The ORESS 1 Auction Process consists of the steps associated with submitting an Offer Price, running the auction and issuing Provisional and Final Auction Results.

5. ORESS 1 Notice of Auction Dissatisfaction

An Applicant who, following a TSO decision with respect to the Provisional Auction Results, considers that the TSO has not applied the Terms and Conditions correctly in their determination of the Provisional Auction Results, can submit a Notice of Auction Dissatisfaction (OR1ND) to the Minister (copying the TSO). The Applicant should detail the relevant provisions of the ORESS 1 Terms and Conditions that they consider have not been applied correctly by the TSO.

The Notice of Dissatisfaction must be received by the Minister no later than two working days after receipt of the Provisional Auction Results.

It is preferable that this document is typed and if this is not possible it must be completed using block capitals. For the avoidance of doubt, the document should be completed, printed, signed by the authorised user and sent to oress@Decc.gov.ie copying RESS@eirgrid.com.

6. ORESS 1 Parameters

In accordance with 6.2.3 of the ORESS 1 Terms and Conditions, the final values of the RMin and RMax, as approved by the Minister, are as follows:

RMin	1,000 GWh
RMax	18,000 GWh

an auction a statement to this effect will be published before the ORESS 1 Auction Submission Deadline Date. Otherwise, the Final Competition Ratio will be published by the Regulatory Authority no later than the Provisional Auction Results Date.

7. RESS Auction Platform - Connectivity Information

The RESS Auction Platform that was used by the Applicant to complete and submit an Application for Qualification in respect of the ORESS 1 Auction will be used to submit Offer Prices, which will be used in the auction algorithm.

An Offer Price will only be accepted by the TSO if it is submitted by a RESS Authorised User. The same log-in credentials issued for the qualification phase should be used to access the Platform to submit Offer Prices.

Similar to the qualification stage, an Applicant will be issued with a code to their mobile phone which must be entered to complete the logon. This is to ensure a high level of security on the Platform.

Should an authorised user forget their password, they can email the RESS Team at RESS@Eirgrid.com. Alternatively, another Authorised User for the same project can reset the password for other users.

The contact email address for those experiencing difficulties accessing the RESS Auction Platform is RESS@Eirgrid.com.

8. RESS Auction Platform - Offer Submission

An applicant will submit their Offer Price within the RESS Auction Platform (RAP). When an authorised user accesses the RAP, they will need to navigate to the Offer Price tab within their Application for Qualification (AfQ) as highlighted in Figure 1 below. All other tabs on the Platform will be locked.
