Regulatory role in the European Network Codes

Philip Newsome
CER

Framework Guidelines & Network Codes

24 October 2012

- ACER is responsible for delivering the Internal Market. CER and UR input into ACER's work programme and review of internal market rules
- Under Third Package ACER has key role in:
 - » producing Framework Guidelines in relation to each Network Code
 - » reviewing ENTSO-E Network Codes to ensure they are in line with the Framework Guidelines
- ACER also have important role in monitoring the Internal Market and progress to reaching 2014
- 2 year derogation from CACM for island of Ireland overseen by ACER

SEM RAs very involved in ACER and Framework Guidelines

- » Attending meetings and input into drafting groups and ACER BoR decisions
- » We are representing interests of SEM consumers
- » Also UR involvement in UK Stakeholder Groups and Ofgem
- » Liaison with DCENR and EirGrid as appropriate
- » Through our involvement we have had successes:
 - 2 year derogation for SEM from FG CACM
 - central dispatch wording in Balancing FG

To date, ACER have adopted Framework Guidelines on:

- » Grid Connection (20/07/11)
- » Capacity Allocation and Congestion Management (29/07/11)
- » System Operation (02/12/11)
- » Electricity Balancing (20/09/12)

- **ACER are currently reviewing the following Network Codes:**
 - » CACM Network Code (Decision by end 2012)
- **ACER have called for improvements to the following Network Codes:**
 - » Requirements for Generators Network Code(13/10/12)
- **In 2013, we expect to review:**
 - » Forward Network Code, Balancing Network Code, Demand Connection Network Code and 3 SO Network Codes
- **Also key role for Member States in Network Codes at Comitology**

- **In 2013 ACER will also be focussing on:**
 - » The regional implementation of the Target Model including stakeholder engagement
 - » Rules for the cross border forward market and FTRs/PTRs (recent consultation)
 - » The implications of CPM on the internal market
 - » Redispatch and countertrading

- **ACER Stakeholder Engagement**

- » ACER consultations on all Framework Guidelines
- » AESAG Forum – ACER, EC, ENTSO, Eurelectric, EFET.

- **SEM Stakeholder Group on European Internal Market**

- » SEM Market Integration Project - to implement Target Model and meet Network Code requirements – shortly to move to next phase
- » UK DECC/Ofgem European Group and National Grid Joint Electricity Steering Group consider Network Code issues for GB
- » RAs intend to set up Stakeholder Forum on the European Internal Market in conjunction with Departments and EirGrid
