Disclaimer

EirGrid plc (EirGrid) in its capacity as Transmission System Operator is required by the RESS 1 Terms and Conditions to publish the RESS 1 Provisional Auction Results. This publication discharges that obligation.

Prior to taking business decisions, interested parties should not rely on the information set out in this document as a substitute for obtaining separate and independent advice in relation to the matters covered by this publication. Information in this document does not amount to a recommendation or advice in respect of any possible investment. The use of information contained within this document for any form of decision making is done so at the user's own risk. This document should be read in conjunction with the RESS 1 Terms and Conditions including any amendments to these rules.

Whilst every effort is made to provide information that is useful and care has been taken in the preparation of the information, EirGrid gives no warranties or representations, expressed or implied, of any kind, with respect to the contents of this document, including without limitation, its quality, accuracy and completeness.

EirGrid and their respective advisers, consultants and other contributors to this document (or their respective associated companies, businesses, partners, directors, officers or employees) hereby excludes to the fullest extent permitted by law, all and any liability for any errors, omissions, defects or misrepresentations in the information contained in this document, or for any loss or damage suffered by persons who use or rely on such information (including by reason of negligence, negligent misstatement or otherwise).

1. Background

RESS 1 is the first Renewable Electricity Support Scheme by the Government of Ireland and is a pivotal component of the Government's Climate Action Plan. RESS 1 uses a competitive auction process to determine which generators receive support. For projects that are successful in the RESS 1 Auction, this support typically applies for approximately 15 years.

Action Number 28 of the Climate Action Plan 2019 addresses the design and implementation of RESS. The action calls on the need to increase the volumes and frequencies of RESS auctions to deliver on the 70% renewable electricity target by 2030, ensuring an appropriate community/enterprise mix to achieve an efficient delivery of renewables. RESS 1 is the first step in this important component of the Climate Action Plan.

The RESS 1 Auction ran as per the [RESS 1 Auction Timetable](#) following the Auction Submission Closing Date on the 28/07/20. The aim of this document is to publish the provisional auction results determined by EirGrid in respect of the RESS 1 Auction, as set out in Section 9.4 of the [RESS 1 Terms and Conditions](#).

The Provisional Auction Results are subject to approval and the reserved rights of the Minister for Communication, Climate Action and Environment as set out in Section 10 of the RESS 1 Terms and Conditions.

2. Qualification

A total of 114 projects applied to participate in the RESS 1 qualification process. The Final Qualification Results as approved by the Minister for Communications, Climate Action and the Environment qualified 109 projects (including eight Community Projects) to participate in the RESS 1 Auction. Three projects did not qualify and two projects formally withdrew from the process.

The RESS 1 Auction submission window for Offer Prices opened on 21/07/20 at 10:00 and closed on 28/07/20 at 12:00. Of the 109 projects that qualified to participate in the RESS 1 Auction as approved by the Minister, 108 projects submitted an Offer Price for their project via the online portal before the deadline of 12:00 on 28/07/20.

EirGrid ran the auction on the afternoon of 28/07/20. Of the 108 projects who submitted an Offer Price in respect of the RESS 1 Auction, 82 projects have been provisionally successful in the auction and 26 projects have been provisionally unsuccessful in the auction.

3. RESS 1 Auction Timetable

Table 1 sets out dates for the main milestones for the RESS 1 Auction in accordance with the RESS 1 Terms and Conditions. The publication of this report represents the completion of the Provisional Auction Results milestone.

4. RESS 1 Provisional Auction Results

4.1 Weighted Average Strike Price of Provisionally Successful Offers

Table 2 contains the Deemed Energy Quantity (DEQ) GWh-weighted average Strike Price¹ of the provisionally Successful Applicants for each Preference Category.

Table 2 DEQ GWh Weighted Average Offer Price of Successful Offers

	Community	Solar	All Projects
Average Price	104.15 €/MWh	72.92 €/MWh	74.08 €/MWh

4.2 Deemed Energy Quantity Provisionally Successful and Unsuccessful

A total Deemed Energy Quantity (GWh) of 2236.652 GWh was provisionally successful and a total Deemed Energy Quantity (GWh) of 317.235 GWh was not successful. In Offer Quantity (MW) terms, this represents a total of 1275.536 MW that was successful and a total of 283.4 MW that was not successful. Figure 1 shows the Total Deemed Energy Quantity (GWh) Successful and Unsuccessful by Eligible Technology.

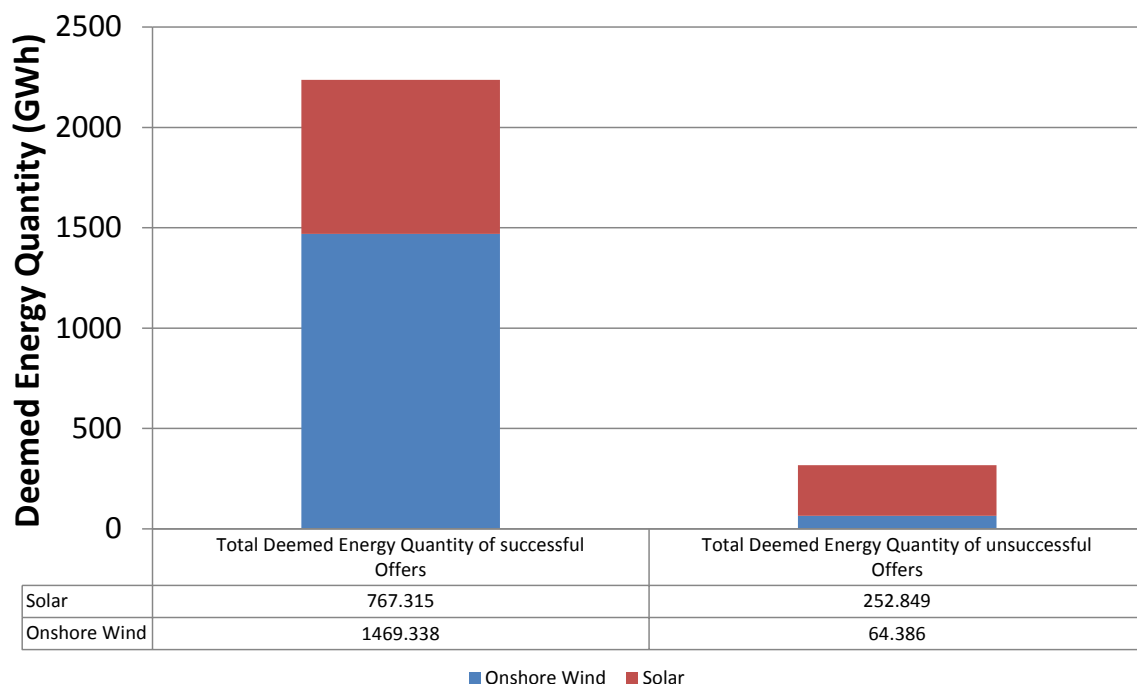

Figure 1 Deemed Energy Quantity Provisionally Successful and Unsuccessful by Eligible Technology

¹ The GWh-weighted average price for a preference category is based on all the successful quantities in that preference category (including those in that preference category that cleared in other preference categories).

4.3 Offer Quantity Provisionally Successful and Unsuccessful

Figure 2 shows the total Offer Quantity provisionally Successful and Unsuccessful by Eligible Technology.

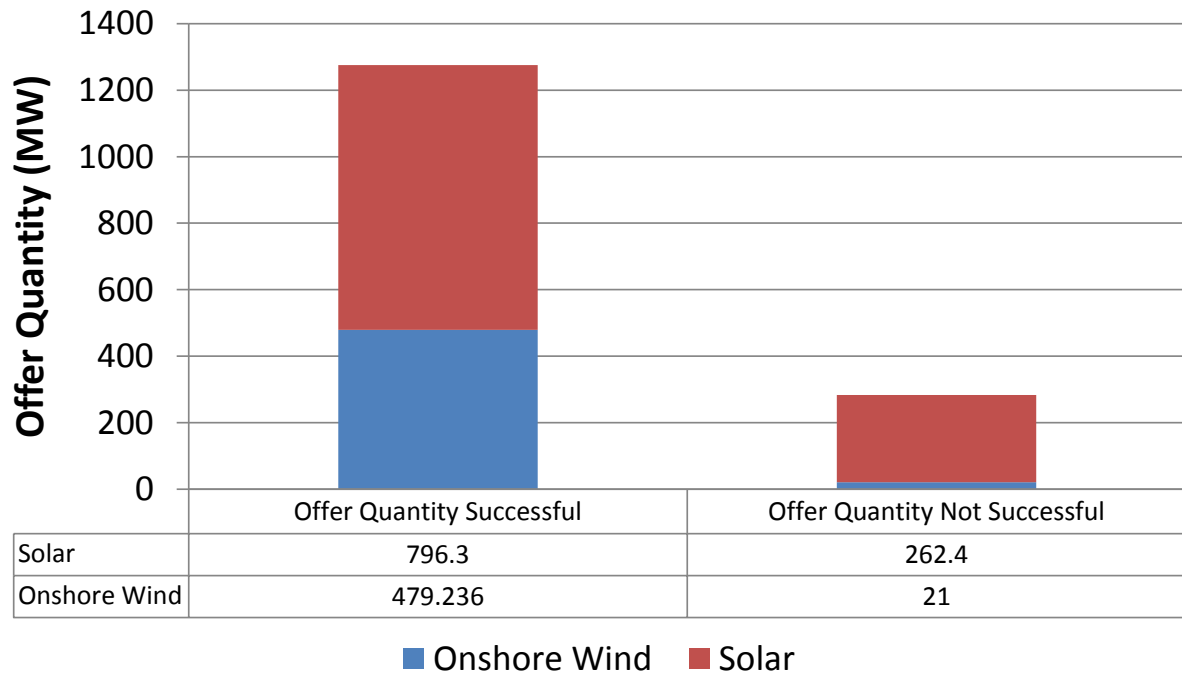

Figure 2 Offer Quantity Provisionally Successful and Unsuccessful by Eligible Technology

4.4 Location of RESS 1 Provisionally Successful Projects

Figure 3 shows the location of each provisionally Successful Project by Eligible Technology.

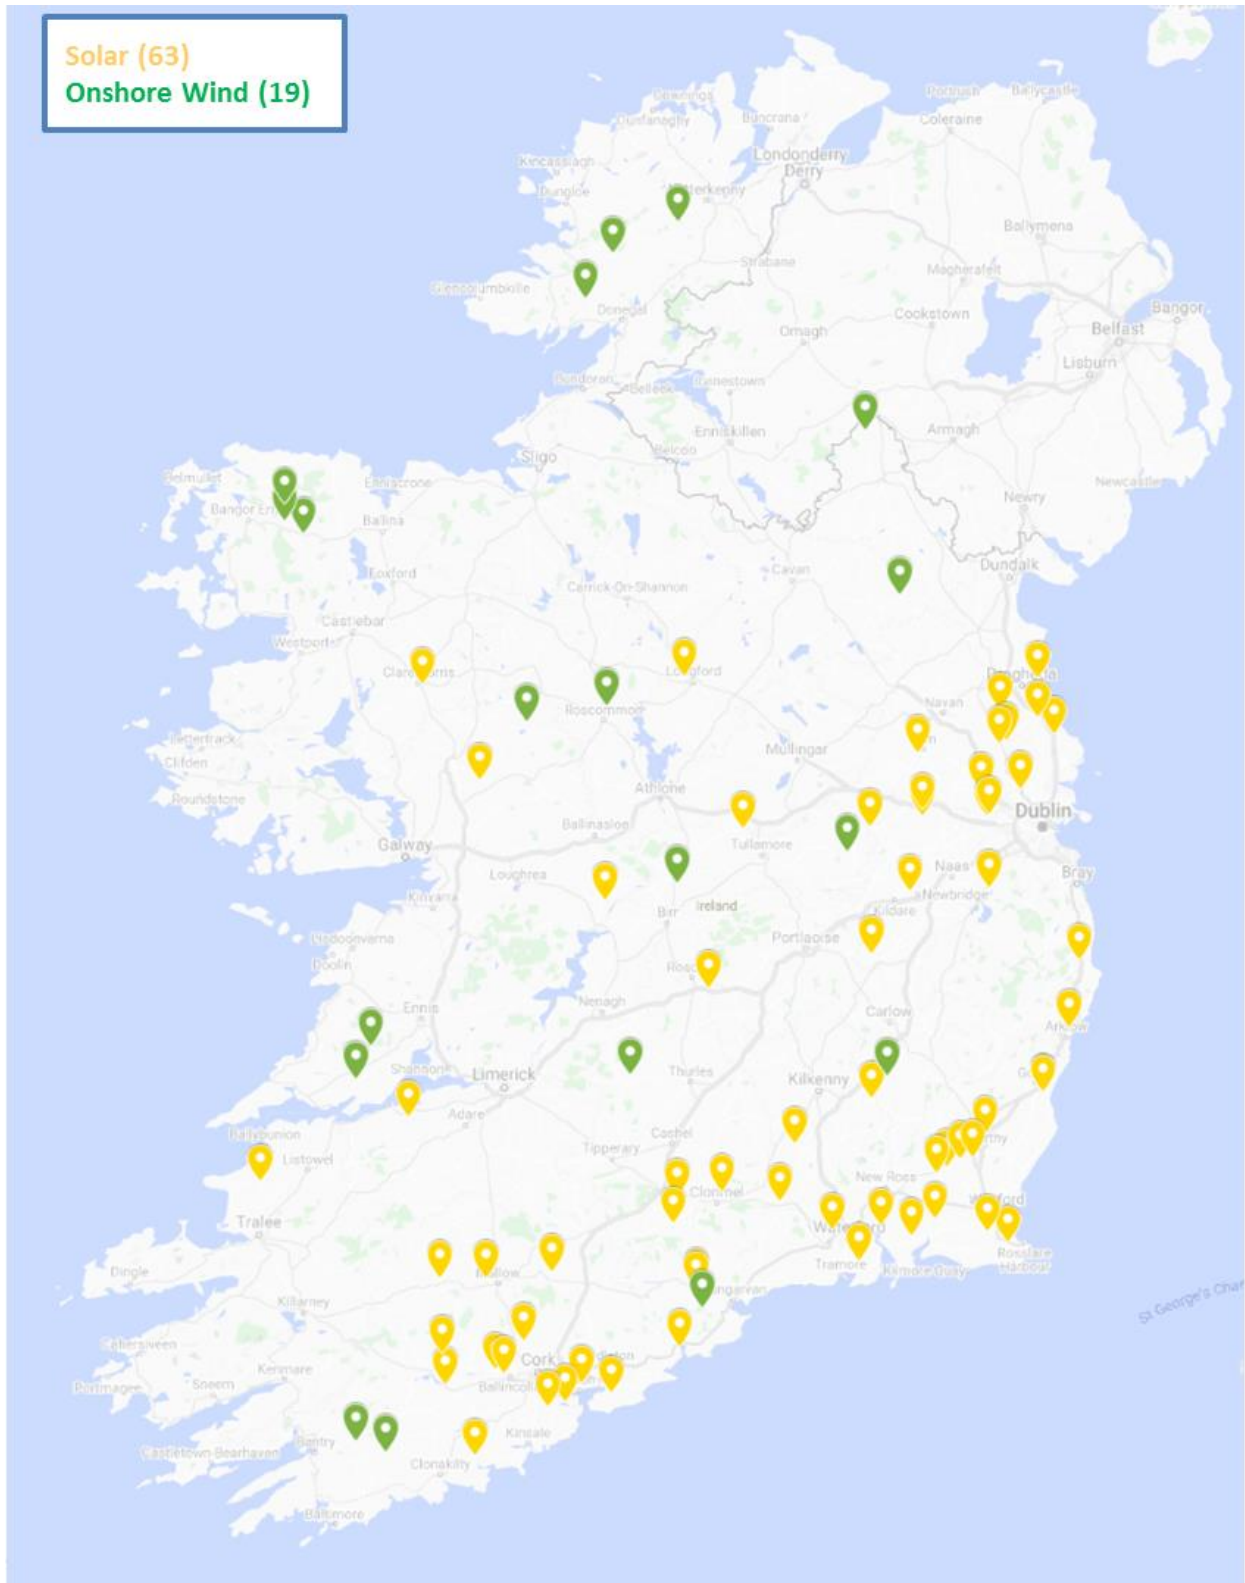

Figure 3 Location of RESS 1 Provisionally Successful Projects

5. List of RESS 1 Provisionally Successful Applicants

Details of the provisionally Successful Applicants are listed in Table 3 below.

Table 3 RESS 1 Provisionally Successful Projects

Application Reference	Successful Applicant	Successful Project	Offer Quantity (MW)	Eligible Technology
RESS1-0009	Solas Eireann 7 Ltd	Ballinknockane Solar Farm	50	Solar
RESS1-0013	Hts Source Renewable Partners Limited	Ballycrissane Solar Farm	4	Solar
RESS1-0014	Coolroe Solar Limited	Ballycullane Solar Park	4.99	Solar
RESS1-0019	Sunrise Energy Supply Limited	Ballymackesy East Solar Farm	4	Solar
RESS1-0022	Amarenco Solar Cobh Ltd	Ballynacrusha	4.95	Solar
RESS1-0025	Ballytobin Solar Limited	Ballytobin Solar PV	4	Solar
RESS1-0026	Reeve Wave Limited	Ballytrasna Solar Farm	0.5	Solar
RESS1-0028	Templederry Energy Resources Ltd	Barnderg Solar Farm	4	Solar
RESS1-0037	Lightsource Ireland Spv 4 Limited	Blundlestown	52	Solar
RESS1-0038	Blusheens Solar Limited	Blusheens Solar Park	7.98	Solar
