Disclaimer

EirGrid plc (EirGrid) in its capacity as Auction Administrator is required by the RESS 5 Terms and Conditions to publish the RESS 5 Provisional Auction Results. This publication discharges that obligation.

Prior to taking business decisions, interested parties should not rely on the information set out in this document as a substitute for obtaining separate and independent advice in relation to the matters covered by this publication. Information in this document does not amount to a recommendation or advice in respect of any possible investment. The use of information contained within this document for any form of decision making is done so at the user's own risk. This document should be read in conjunction with the RESS 5 Terms and Conditions including any amendments to these rules.

Whilst every effort is made to provide information that is useful and care has been taken in the preparation of the information, EirGrid gives no warranties or representations, expressed or implied, of any kind, with respect to the contents of this document, including without limitation, its quality, accuracy and completeness.

EirGrid and their respective advisers, consultants and other contributors to this document (or their respective associated companies, businesses, partners, directors, officers or employees) hereby excludes to the fullest extent permitted by law, all and any liability for any errors, omissions, defects or misrepresentations in the information contained in this document, or for any loss or damage suffered by persons who use or rely on such information (including by reason of negligence, negligent misstatement or otherwise).

1. Background

RESS 5 is the fifth Onshore Renewable Electricity Support Scheme by the Government of Ireland and is a pivotal component of the Programme for Government and the [Climate Action Plan 2025](#). RESS 5 uses a competitive auction process to determine which generators receive support. For projects that are successful in the RESS 5 Auction, this support typically applies for approximately 15 years.

The RESS 5 Auction ran as per the [RESS 5 Auction Timetable](#) following the Auction Submission Closing Date on the 09/09/2025. The purpose of this document is to publish the Provisional Auction Results determined by EirGrid in respect of the RESS 5 Auction, as set out in Section 8.5.1 of the [RESS 5 Terms and Conditions](#).

The Provisional Auction Results are subject to approval and the reserved rights of the Minister for Climate, Energy and the Environment as set out in Section 12 of the RESS 5 Terms and Conditions.

2. Qualification

A total of 40 projects applied to participate in the RESS 5 qualification process. The Final Qualification Decisions - as approved by the Minister for Climate, Energy and the Environment - qualified 33 projects to participate in the RESS 5 Auction. 4 projects did not qualify, and a further 3 projects formally withdrew from the process.

The RESS 5 Auction submission window for Offer Prices opened on 03/09/2025 at 10:00 and closed on 09/09/2025 at 12:00. Of the 33 projects that qualified to participate in the RESS 5 Auction, all 33 projects submitted an Offer Price for their project via the RESS Auction Platform before the deadline of 12:00 on 09/09/2025.

EirGrid ran the auction on the afternoon of 09/09/2025. Of the 33 projects who submitted an Offer Price in respect of the RESS 5 Auction, 23 projects ([see Table 3](#)) have been provisionally successful, and 10 projects have been provisionally unsuccessful in the auction.

3. RESS 5 Auction Timetable

Table 1 sets out dates for the main milestones of the RESS 5 Auction in accordance with the RESS 5 Terms and Conditions. The publication of this report represents the completion of the Provisional Auction Results milestone.

Process	Event	Date & Time	Status

4. RESS 5 Provisional Auction Results

4.1 Weighted average strike price of provisionally successful offers

Table 2 contains the Deemed Energy Quantity (DEQ) GWh-weighted average Strike Price of the provisionally Successful Applicants.

RESS 5 Provisional Auction Weighted Average Prices ¹	
Average Price: All Projects	€98.81/MWh
Average Price: Solar	€100.63/MWh
Average Price: Wind	€96.56/MWh

Table 2 DEQ GWh weighted average Strike Price of successful offers

(1) Weighted Average Prices are calculated by multiplying individual offer price by individual Deemed Energy Quantity. This calculation is then divided by the sum of the total Deemed Energy Quantity.

4.2 Deemed Energy Quantity provisionally successful and unsuccessful

A total Deemed Energy Quantity of 1500.02 GWh was provisionally successful, and a total Deemed Energy Quantity of 676.73 GWh was not successful. Figure 1 shows the Total Deemed Energy Quantity (GWh) successful and unsuccessful by Eligible Technology.

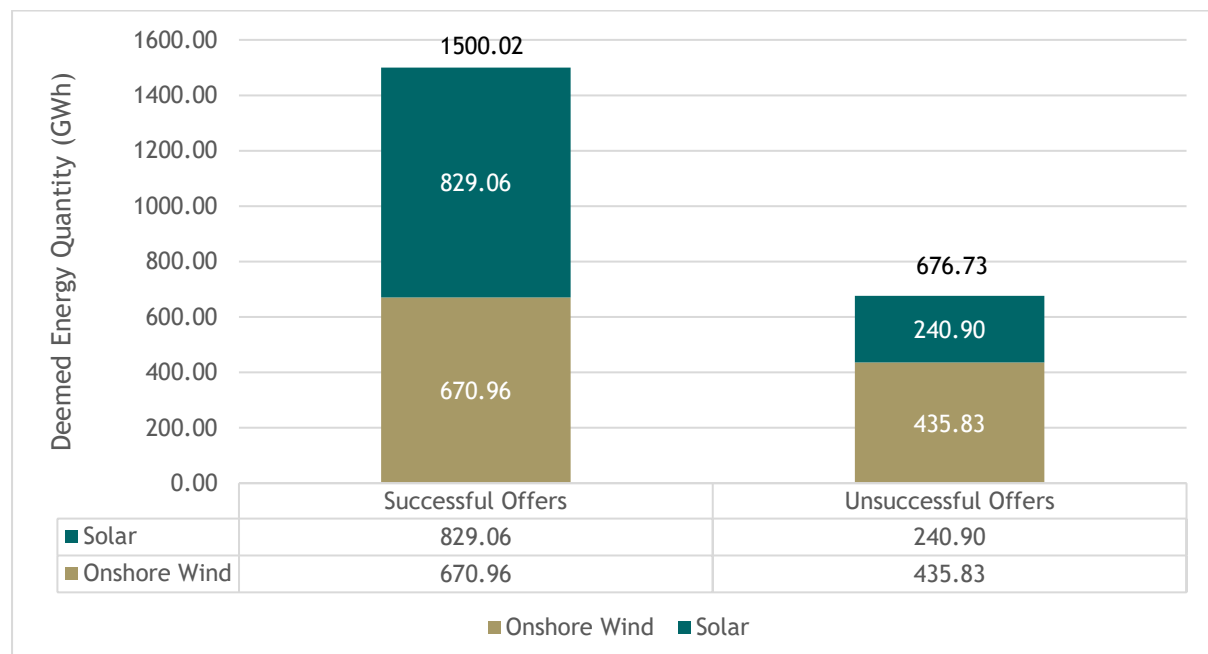

Figure 1 Deemed Energy Quantity provisionally successful and unsuccessful by Eligible Technology

4.3 Offer Quantity provisionally successful and unsuccessful

In Offer Quantity (MW) terms, this represents a total of 1079.22 MW that was successful and 392.15 MW that was not successful. Figure 2 shows the total Offer Quantity provisionally successful and unsuccessful by Eligible Technology.

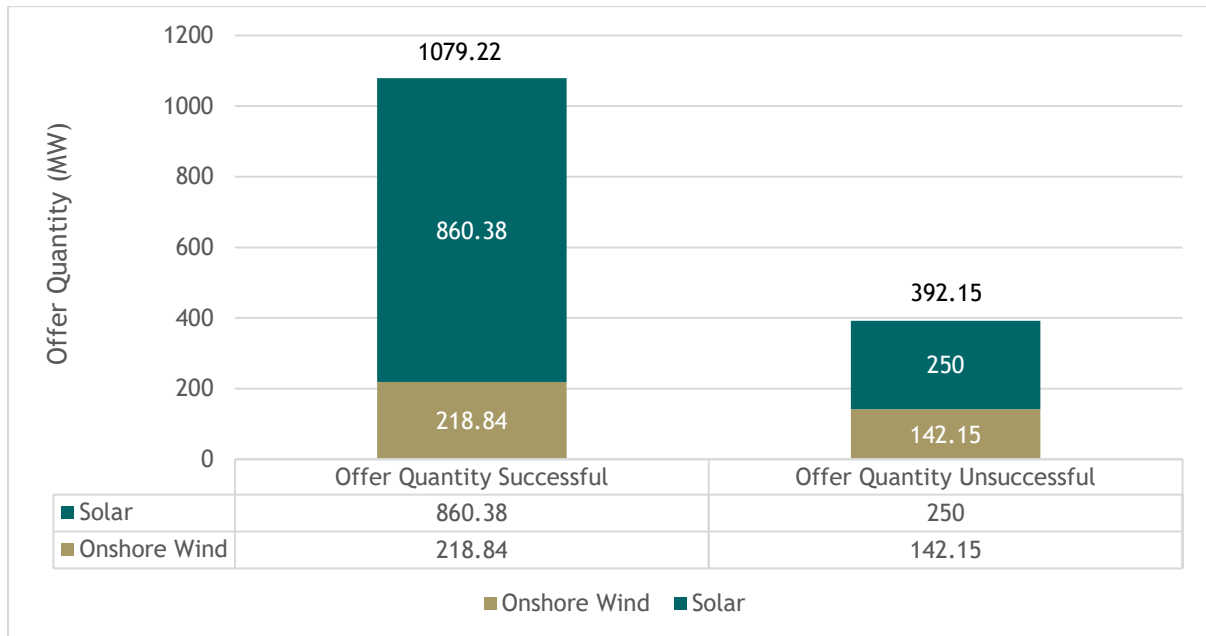

Figure 2 Offer Quantity provisionally successful and unsuccessful by Eligible Technology

4.4 Location of RESS 5 provisionally successful projects

Figure 3 shows the location of each provisionally Successful Project by Eligible Technology.

Figure 3 Location of RESS 5 provisionally successful projects by Eligible Technology

5. List of RESS 5 provisionally successful applicants

Details of the provisionally successful applicants are listed in Table 3 below.

Application Reference	Successful Applicant	Successful Project	Offer Quantity (MW)	Eligible Technology
RESS 5-0044	Cooleasts Limited	Coolboy Solar Farm	5.99	Solar
RESS 5-0172	Foxhall Solar DAC	Foxhall PV	3.99	Solar
RESS 5-0305	Drumman Solar Limited	Drumman Solar Farm	7	Solar
RESS 5-0306	Kilbrew Eco Developments Limited	Reask Solar farm	55	Solar
RESS 5-0333	Barna Wind Energy (B.W.E.) Limited	Carrigdangan Wind Farm	13.65	Onshore Wind
RESS 5-0340	Clonymeath Solar Limited	Clonymeath Solar	15.8	Solar
RESS 5-0345	Toolestown Solar DAC	Toolestown Solar	50	Solar
RESS 5-0347	Lysaghtstown Solar Farm 2 Limited	Lysaghtstown Solar Farm Phase 2	45	Solar
RESS 5-0349	BNRG Ballymoney Limited	Ballymoney PV	7.6	Solar
RESS 5-0352	Ballymanus Windfarm LTD	Ballymanus Wind Farm	39.99	Onshore Wind
RESS 5-0357	Harmony Solar Limerick Limited	Ballyvalode Solar	100	Solar
RESS 5-0358	Harmony Solar Offaly Limited	Kilcormac Solar	105	Solar
RESS 5-0360	Clonswees Limited	Templemichael Solar plus Storage	30	Solar
RESS 5-0362	Mill Farm Solar Project Limited	Mill Farm Solar	63	Solar
RESS 5-0365	Knockroe Windfarm Limited	Knockroe Wind Farm	33.6	Onshore Wind
RESS 5-0366	Curns Energy Limited	Lyrenacarriga Wind Farm & Bess	81.6	Onshore Wind
RESS 5-0367	Lodgewood Solar Farm Limited	Tincurry Solar Farm	109	Solar
RESS 5-0368	Coolcarrigan Solar Limited	Coolcarrigan Solar	100	Solar
RESS 5-0369	Blue Pine Solar 09 Limited	Friarstown Solar Farm	50	Solar
RESS 5-0374	Tullabeg Solar Farm 2 Limited	Tullabeg Phase 3	30	Solar
RESS 5-0375	Ballin Solar Limited	Gortdrum Solar PV	48	Solar
RESS 5-0376	Seskin Solar Farm Limited	Barnaleen Solar Phase 2	35	Solar
RESS 5-0378	Bord Na Mona Powergen Ltd	Oweninny 3	50	Onshore Wind
