*EirGrid has followed accepted practice in the collection and analysis of information available and has created this report on the basis of information available up to the date of publication. While all reasonable care has been taken in the preparation of this report, EirGrid are not responsible for any loss that may be attributed to the use of this information. Prior to taking business decisions parties are advised to take separate and independent opinion in relation to the matters covered in this report and should not rely solely on the information contained herein.*

Note: For the purposes of this report MEC (MW) should be taken to refer to the firm capacity offered to transmission applicants as part of Gate 3. Information included in this report refers to the acceptance status of the original Gate 3 offers. Any amendments to capacity e.g. splitting, merging or relocating etc will be reflected in EirGrid's connected and contracted reports
