

Monthly Wind Forecast Accuracy Report

June 2020

All-Island Wind Generation and Forecast Accuracy for Primary Vendor

All-Island Wind Generation and Forecast Accuracy for Secondary Vendor

Notes:

Primary and Secondary Vendors provide EirGrid with 2 separate Wind Power Forecasts
 System Data is based on 30-minute average SCADA MW data
 NME is Normalised Mean Error, NMAE is Normalised Mean Absolute Error and NRMSE is Normalised Root Mean Squared Error
 All statistics reported are normalised to the average total system installed wind capacity for the period analysed
