

Monthly Wind Forecast Accuracy Report March 2018

All-Island Wind Generation and Forecast Accuracy for Primary Vendor

All-Island Wind Generation and Forecast Accuracy for Secondary Vendor

Notes:

System Data is based on 30-minute average SCADA MW data
 NME is Normalised Mean Error, NMAE is Normalised Mean Absolute Error and NRMSE is Normalised Root Mean Squared Error
 All statistics reported are normalised to the average total system installed wind capacity for the period analysed
